

JUDY GHIYATH ALQABBANI

SOFTWARE ENGINEER · SYSTEM ANALYST · PROJECT MANAGER

Damascus, Syria | +963 945475943 | joudi.kab01@gmail.com | Portfolio | [LinkedIn Profile](#)

Results-driven Software Engineer and Project Manager with hands-on expertise across system analysis, cross-platform mobile development (Flutter). Experienced in leading multi-project delivery using Scrum, translating business requirements into actionable user stories, and architecting scalable applications. Strong background in state management, clean architecture, and REST API integration, with a proven record of shipping production apps across iOS, Android, web, and Smart TV platforms.

PROFESSIONAL EXPERIENCE

System Analyst

04/2025 – Present

Pharaon Group, Damascus, Syria

- Collaborate with clients and stakeholders to gather business needs and translate them into functional requirements.
- Author detailed project documentation including epics, user stories, acceptance criteria, and requirement specifications.
- Conduct system testing and validation to guarantee quality and performance before delivery.
- Coordinate with development teams to refine workflows and support smooth project execution across Pyramid, Like, and Glovent.

Project Manager

08/2024 – 01/2025

Ikoniks, Germany (Remote)

- Led a team of developers in delivering scalable software solutions across the Damen platform.
- Managed project timelines, Agile processes, and client communications.
- Ensured efficient workflow using Scrum methodologies and project tracking tools.

Flutter Developer

06/2024 – 01/2025

Ikoniks, Germany (Remote)

- Developed and maintained the Damen mobile app using Flutter.
- Collaborated with designers and backend developers to implement modern UI/UX principles and ensure seamless backend integration.
- Applied state management solutions (Provider, GetX, Bloc) to improve app responsiveness and scalability.

Flutter Developer

01/2024 – 06/2024

Plansters, Damascus, Syria

- Designed and built cross-platform mobile applications for diverse clients (Batra, Al Aseel Keys).
- Implemented modern UI/UX principles and optimized app performance for both iOS and Android.
- Delivered fully bilingual (Arabic/English) interfaces aligned with each client's brand identity.

Flutter Developer

04/2023 – 01/2024

Solunyx, Syria

- Developed and maintained mobile applications (Tayar, Iman Smart Athan, Smart Athan, SmartDeen), meeting strict deadlines.
- Led the implementation of state management solutions (BLoC, GetX) to enhance performance and maintainability.

- Optimized app responsiveness and backend integrations, ensuring seamless user experiences across IoT-connected products.

Flutter Developer

12/2022 – 03/2023

WeCan, Amman, Jordan

- Enhanced and maintained cross-platform applications including the Yalla Mazad live auction platform.
- Integrated Google Pay, Apple Pay, and Firebase Firestore for secure real-time transactions.
- Conducted code reviews, performance testing, and technical documentation.

Flutter Developer

10/2022 – 12/2022

Future Code, Syria

- Developed real-time messaging and social features for Alma Chat.
- Integrated voice/video calling (WebRTC) and in-app e-payment flows.

SELECTED PROJECTS

Glovent — Event Management Landing Page

05/2026 – Present

Pharaon Group · React, TypeScript, Responsive Design

- Building the official landing page for Glovent, an event management and production company.
- Delivering a fully responsive, performance-optimized site with SEO-friendly semantic markup.

Like — Multimedia Streaming Platform

01/2026 – Present

Pharaon Group · Project Manager · React, TypeScript, WebOS, Tizen, REST API

- Leading end-to-end delivery of a comprehensive streaming ecosystem spanning IPTV, LG WebOS, Samsung Tizen, web portal, billing, and back-office dashboard.
- Coordinate cross-functional teams across six sub-products: Like IPTV, Like LG TV, Like Samsung TV, Like On Internet, Like Billing, and Like Blue.
- Facilitate Scrum ceremonies, sprint planning, and stakeholder alignment to ensure consistent UX across all device touchpoints.

Pyramind

04/2025 – 05/2026

Pharaon Group · Scrum, Agile, Jira, System Analysis

- Led analysis and planning, defining clear requirements, user stories, and acceptance criteria aligned with business goals.
- Managed the Scrum process — sprint planning, stand-ups, reviews, and retrospectives — to ensure continuous progress.
- Coordinated cross-functional teams and stakeholders, tracking progress and ensuring timely high-quality feature delivery.

Damen

06/2024 – 10/2024

Ikoniks · Flutter, Real-time Chat, Firebase, Provider

- Developed two companion mobile apps connecting users with building service professionals (contractors, architects, engineers).
- Designed and integrated a real-time chat feature with push notifications for seamless client-provider communication.

Batra & Al Aseel Keys

01/2024 – 06/2024

Plansters · Flutter, GetX, Hive, REST API

- Led development of the Batra e-commerce app for Iraq's leading lighting solutions provider.

- Built Al Aseel Keys for security and access control products, featuring real-time inventory sync and dynamic filtering.

Tayar · Iman Smart Athan · SmartDeen

04/2023 – 01/2024

Solunyx · Flutter, BLoC, IoT, Background Services

- Built Tayar — an IoT energy monitoring and control system with real-time tracking, remote control, and automated alerts.
- Enhanced Iman Smart Athan and SmartDeen with prayer-time automation, athan notifications, and smart-device synchronization.

Yalla Mazad & Alma Chat

10/2022 – 02/2023

WeCan / Future Code · Flutter, Firebase, WebRTC, Google Pay, Apple Pay

- Built a real-time live auction platform (Yalla Mazad) with Google Pay / Apple Pay integration and Firebase Firestore.
- Contributed to Alma Chat — a social messaging app with WebRTC voice/video calling and in-app payments.

EDUCATION

Bachelor's Degree in Computer Engineering

09/2019 – 11/2024

- **Major:** Software Engineering & Information Systems

University of Damascus

GPA: 82%

KEY SKILLS

Mobile & Software Development:

- **Flutter Framework:** Dio, Retrofit, Chopper, HTTP, Hive, SQFLite, Background Services, Shared Preferences, Laravel Pusher.
- **State Management:** Provider, GetX, Bloc, Riverpod.
- **Cross-Platform Development:** iOS & Android.
- **Programming Languages:** Dart, Java, C++, JavaScript, TypeScript, PHP, Python.

Web Applications Development:

- React, TypeScript, HTML5, CSS3, Responsive Design.
- HLS.js streaming, cross-browser compatibility, Smart TV web apps (WebOS, Tizen).

Frameworks & Libraries:

- **Frontend:** Flutter, React, Three.js.
- **Backend:** NestJS, Laravel.
- **Graphics & UI:** Legacy OpenGL.
- **Databases:** Firebase Firestore, SQL Server, Oracle, Big Data, Data Warehousing.

Security & Authentication:

- Firebase Authentication, OAuth (Google, Facebook), JWT, REST API Authentication.

Project Management & Collaboration:

- Agile (Scrum, Kanban), Jira, ClickUp, system analysis, user stories & acceptance criteria.
- Git, GitHub, GitLab, Bitbucket, CI/CD Pipelines, Code Reviews.

UI/UX & Design:

- Responsive app design, Figma, Adobe XD, Design Systems.
- Clean Architecture (MVC, MVVM).

CERTIFICATIONS & TRAINING

- Oxford C1 English Certification (Advanced Proficiency).
- Google Developer Students Club (GDSC) Leadership Training.

VOLUNTEERING & LEADERSHIP

Head of Flutter Team

09/2022 – 08/2024

Google Developer Students Club — Future Academy, Egypt

- Led a team of Flutter developers, fostering innovation and collaboration in developing community applications.

Flutter Core Team Member

09/2022 – 08/2024

Google Developer Students Club — Sohag University, Egypt

- Contributed to developing Flutter applications for community projects.

LANGUAGES

- **Arabic:** Native.
- **English:** Advanced (C1 – Oxford Certified).
